This document is a preview of the questions for the AML Data Collection exercise 2026. Please note you must provide your firm's responses through the [prescribed form](#), not via this document.

Initial questions

There are three initial questions you must answer. Depending on your answers you will be asked to complete different sections of the questionnaire.

Q01 - Initial question 1 of 3

Does your firm carry out any of the following activities in scope of the Money Laundering, Terrorist Financing and Transfer of Funds (Information on the Payer) Regulations 2017 (MLR 2017)?

Activities in scope of the MLR 2017:

- the buying and selling of real property or business entities
- the managing of client money, securities or other assets
- the opening or management of bank, savings or securities accounts (other than a client account as specified in the Accounts Rules)
- the organisation of contributions necessary for the creation, operation or management of companies
- providing material aid, or assistance or advice, in connection with the tax affairs of other persons, whether provided directly or through a third party, when providing such services.

Yes

No

Additional information for Q01:

What does 'the managing of client money, securities or other assets' mean?

We would regard 'managing' to include arranging or making transactions on behalf of a client, but it would not include just holding on to assets on behalf of the client.

Please note, we will not accept responses submitted using this form.
You must complete the online form - www.sra.org.uk/aml-data

What does 'management of bank, savings or securities accounts' mean?

'Management' implies activity beyond simply holding the assets.

If you need more information about the meaning of any of these terms, [see our guidance](#).

Additional information for Q08:

What does 'relevant employees' mean?

The definition of 'relevant employee' in [regulation 24\(2\)](#) is very wide, and firms should interpret it as such. We do not consider that it refers to fee earning staff alone, and other staff can play a key role in assisting in the identification, mitigation, prevention, or detection of the risk of money laundering. For example:

- administrative staff will often be responsible for gathering and collating due diligence, and their work may involve building a rapport with the client
- reception staff see clients in unguarded moments, and will need to know how to deal with any cash offered by clients
- finance staff will need to know how to recognise suspicious payments into the firm's accounts and how to deal with unexpected transactions.
