

Race - past, present and future

7 December 2020

Join us to mark 10 years of the Equality Act 2010 to discuss the past, present and future of race equality. We will be discussing the roles we can all play as individuals and as law firms in creating an anti-racist legal profession. We will talk about actions you can take away with you and share our thoughts on experiences, challenges and opportunities on race equality in the profession.
