

## SQE training providers list

This is a list of organisations that have told us that they provide SQE education, tutoring or training services or produce SQE-related study materials and resources. It is intended to help potential SQE candidates identify what training is available.

This is not a comprehensive or definitive list of all training providers or organisations but of those who have asked to be on the list.

We do not accredit or endorse organisations providing SQE training or study materials. We also have no role in approving, endorsing, or overseeing the training courses, or materials, or their quality.

The information in this list has been provided by the organisation and has not been reviewed by us for accuracy. We accept no responsibility for the information provided, the quality of the training, or your performance in the SQE assessments because of the service provided by a training provider or organisation included in this list.

Candidates should make their own enquiries to satisfy themselves as to the quality and suitability of training and the products and services that organisations on the list offer. We have resources available to help you do this.

This list will be updated regularly.
