

Environment

Birmingham

Our headquarters are located in the city centre, convenient for both public transport and parking.

Our staff enjoy a safe and secure working environment, with access to the building controlled by smart ID cards.

We redesigned and upgraded our offices in The Cube, Birmingham in 2022. With a welcoming and calming design, the offices were planned with accessibility and well-being front and centre. It's a modern space in the heart of the City with both formal and informal spaces for meeting, working and simply being.

London

Our London office is a short walk from several main-line and underground railway stations. Old Broad Street is off Threadneedle Street.

A number of our staff are permanently located in London, and we also have hot desks available for staff visiting London for meetings.

Hybrid working

We offer hybrid working from all of our offices. This means working from home most of the time and coming into the office once or twice a week, depending on business or team needs.

We support people who work for us through accessible premises and other reasonable adjustments [[/sra/jobs/diversity-inclusion/#adjustments](#)].
